

ST. CHARLES COUNTY

ST CHARLES URBAN COUNTY COMMUNITY DEVELOPMENT BLOCK GRANT

St. Charles County would like to hear from residents, service providers, business owners, and other interested parties what they think are the most important community services, housing, and resources needed within the community. This feedback will be used to help the County structure the funding of its future Community Development Block Grant (CDBG) programs.

A Community Needs Assessment Survey below lists CDBG eligible programs and asks respondents to rank each one on the basis of its perceived need in the community. The priority ranking of *High, Medium, Low, and No Need* is intended to determine the areas of highest need for the programs in which the County should focus its efforts and funding.

The County appreciates your interest and participation in this important endeavor.
